Optional Assignment: Exam 3 Rewrite

For those of you who took exam 3, the average was fairly poor so (in addition to a curve) I would like to give you the opportunity to recover some of your grade and, more importantly, review the concepts or math which you did not understand on the exam.

As it will likely take me lots of time to grade these (I will do it myself), I will be very strict with the guidelines for this OPTIONAL assignment. Please read this document closely.

Here are the general guidelines for the assignment:

- Submit in class WEDNESDAY NOV 28. I will not accept late submissions.
- The exam answers (but not solutions) will be posted on my website.
- You may pick up to 5 questions that you got wrong on the exam, and you will correct your solution to them (precisely as described below).
- For each good correction you will get 2.5% added to your exam 3 grade. There will be no partial credit for a question rewrite, its 2.5% or nothing. [Note: if all 5 are done well you will regain up to 12.5 points on your exam.]
- You can’t get a grade >100% on exam 3.
- Your revised, improved exam 3 grade will replace the exam 3 grade currently on eCampus.

And here is what you MUST INCLUDE in your submission:

- 2-3 sentences clearly expressing what you misunderstood/did wrong---and what you should have done in (or before) the exam to get it right. The idea is I want to understand your self-reflection as to why you couldn’t get the answer. What confused you, and why couldn’t you get beyond that confusion? What could you have done to better prepare yourself for that question, or what thoughts/procedures could you have used in the exam to help you think through it?
- Provide a *correct*, detailed written solution such that I can see the correct way of thinking from question to answer.

Required or I will not grade:

- Handwritten submissions only for rewrite.
- Original exam copy (with scrap), AND answers rewrite. Staple all your materials together. I am not accountable for lost pages due to poor fastening techniques. If you can’t find a stapler, there are several in White Hall 111.
- Understandable sentences (If not clear, I will not guess at what you mean, I will simply not regrade the problem).
- I must be able to read your rewrite’s handwriting without struggling.
- It should be clear that the rewrite is in your hand writing.
